When applicable

If the total volume of the building is greater than 50,000 cubic feet signatures are required in the proper blanks below and the plans are required to have original seals and signatures by a licensed architect, engineer, or HVAC designer. Per SPS 361.20, 361.31(1) & 361.50 The designer indicated on page 1 of this form is responsible for preparing or supervising the preparation of the plans to the best of his or her knowledge to comply with the applicable codes of the Division of Safety and Buildings for this submittal.

If the total volume of the building is less than 50,000 cubic feet no signatures are required below. The total volume of the building is:

() less than 50,000 cubic feet

☒ 50,000 cubic feet or greater

Supervising Professionals Signature must be included for Buildings greater than 50,000 cubic feet or the submittal will be rejected.

11. Supervising Professional's Statement: I have been retained by the owner as the **supervising professional** per SPS. 361.40 for the performance or supervision of reasonable on-the-site observations to determine if the construction is in substantial compliance with the approved plans and specifications. Upon completion of construction, I will file a written statement with the City of Madison Neighborhood Preservation Inspection Division certifying that, to the best of my knowledge and belief, construction has or has not been performed in substantial compliance with the approved plans and specifications.

12. Designer of record to complete this section only for component submittals such as trusses, precast, and manufactured metal buildings.

The Department of Safety & Professional Services expects and requires, that the project designer review individual component submittals for compliance with the general design concept. The project designer, and department, will rely on the seal of the component designers for compliance with the codes as they apply to their designs. Components include such things as trusses, precast, and manufactured metal buildings.
